Dr. Troy Batts, Superintendent

November 16, 2020

Dear Parents and Students,

Each time we have COVID cases reported to the school we communicate with the Texas Health Department. When seeking the Texas Health Department concerning COVID cases, we give them information about how COVID cases relate to student groups. Most of the time there is no action to be taken in the cases because safety protocols are in place. The number one protocol we have in place is the wearing of face coverings. However, there are times and activities at school where it is not practical to wear face coverings. Those times are lunch, band, and sports. Once students are exposed during those times the district has to look at the activity and ask: Was the activity inside or outside? What is the extent of the contact? What is the distance between individuals?

After consulting the Texas Health Department, all Varsity girl basketball players will need to quarantine until November 27, 2020, due to multiple positive results for COVID 19. If you have any questions or concerns please feel free to call or email me.

Sincerely,

Troy Batts
Superintendent
